

QA Automation Engineer with 3,5+ years of professional experience in software quality and front-end development. I build and maintain end-to-end test suites in **Playwright + TypeScript**, run them in **Jenkins** CI pipelines, and combine automation with thorough manual, exploratory and API testing.

My developer background (React, JavaScript, TypeScript) lets me read the code I test, write maintainable test frameworks and talk to developers in their own language. A background in mathematics and data analysis helps me find edge cases, analyse test results and build reports from data (MongoDB, Grafana).

I work in Agile/Scrum teams, use AI tools in daily QA and development work, and speak fluent English (B2). I thrive in remote, collaborative environments built on trust, ownership and clear communication.

HOBBIES AND INTERESTS

- Programming
- Exploring new places and cultures
- Training body and mind at the gym
- Tracking and analyzing cryptocurrency markets
- Diving into immersive game worlds
- Experimenting with cocktail mixology
- Solving puzzels and logical challenges

Kamil Przybyła

QA Automation Engineer/
Mid Frontend Developer

IT SKILLS

Testing & QA

- Postman
- Playwright
- E2E testing
- Jest, React Testing Library (personal projects)
- Manual and exploratory testing
- Lighthouse
- DevTools
- API testing
- Regression testing
- Cross-browser testing
- Test reporting

Mobile Development (personal projects)

- React Native
- Expo

Frontend Development

- React.js
- Next.js
- JavaScript (ES6+)
- TypeScript
- HTML5 & CSS3
- Tailwind, Bootstrap
- jQuery (legacy systems)

CI/CD & workflow

- Jenkins
- Azure DevOps
- Jira
- Git/Github
- Scrum
- Webstorm

Data & Monitoring

- Grafana
- SQL basics
- Mongo DB

LANGUAGES

Polish	Native	German	A1
English	B2	Italian	A1

EDUCATION

University of Economics in Katowice
10.2018 – 07.2020

Msc in Economic Analyst

Facility: **Statistics, Econometrics and Mathematics**

- Learned to interpret complex datasets, build predictive models, and apply data-driven insights to solve economic and business problems
- Gained strong analytical and quantitative skills through advanced coursework in statistics, econometrics, and mathematical modeling

University of Economics in Katowice
10.2015 – 07.2018

BA in Logistics

Facility: **Management**

- Gained a solid foundation in organizational behavior, decision-making, and logistics systems analysis
- Developed skills in business process optimization, strategic planning, and team-based project management

PERSONAL SKILLS

- **Applying creativity** to design intuitive interfaces and solve complex technical challenges
- **Solving problems** with a logical, analytical approach and a focus on delivering practical solutions
- **Collaborating effectively** in cross-functional teams to achieve shared goals and drive innovation
- **Organizing work** with precision, managing multiple tasks and deadlines in dynamic environments
- **Learning fast**, adapting quickly to new technologies, tools, and project requirements

COURSES AND TRAININGS

- JavaScript - The Complete Guide 2023 (Beginner + Advanced),
- React JS Frontend Web Development for Beginners,
- React Fundamentals,
- React Native - The Practical Guide [2025],
- GitHub Copilot dla Programistów,
- Agenci AI w Microsoft Copilot Studio

EVENTS

- Code Europe – Kraków 2025

WORK EXPERIENCE

DTP Sp. z o. o.
Cieszyn
07.2026 - now

QA Developer

- Designing and maintaining end-to-end test suites in Playwright + TypeScript for new product features
- Running automated tests in Jenkins CI pipelines and analysing failures to separate product bugs from test issues
- Performing manual and exploratory testing of new features and regressions in electrical engineering projects
- Verifying tickets and reporting defects in Azure DevOps and Jira, working with developers on known issues and fixes
- Querying test and application data in MongoDB; creating and analysing quality reports and monitoring results in Grafana
- Working in Scrum sprints: planning, refinement, reviews and retrospectives

KENO Sp. z o. o.
Gliwice
07.2023 – 06.2026

Mid Frontend Developer/Tester

- Developing and maintaining responsive front-end features using React, JavaScript, and jQuery for business-driven web applications, ensuring full responsiveness (RWD)
- Collaborating with cross-functional teams to deliver complete solutions and integrate emerging AI technologies
- Conducting manual testing, debugging, and ensuring high-quality releases across browsers and devices
- Tested REST API endpoints using Postman, including automated tests within collections.
- Contributing to code reviews, process improvements, and continuous learning through personal and team projects

KLDiscovery Ontrack Sp. z o. o.
Katowice
12.2020 – 06.2023

Digital Analyst

- Collecting and processing various types of data collections, as well as solving problems related to their encryption and protection
- Solving business problems and providing proposed solutions that improve the entire data processing process in the most effective way
- Supporting for eDiscovery processing and Project Management departments
- Working and prioritizing multiple projects with similar deadlines

Keywords Studios
Katowice
09.2020 – 11.2020

Game Tester

- Testing video games to identify bugs, glitches, and performance issues
- Documenting and reporting defects clearly to development teams using bug tracking tools
- Collaborating with developers and QA teams to improve gameplay, user experience, and overall stability

Additional Work
Remote
01.2015 – now

Math Tutor

- Explaining mathematical concepts clearly across various levels, from basic arithmetic to advanced topics
- Supporting students in problem-solving, test preparation, and homework assignments
- Tracking student progress and adjusting teaching strategies to maximize understanding and retention

I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process under the European Parliament's and Council of the European Union Regulation on the Protection of Natural Persons as of 27 April 2016, with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC.
